PROFESSIONAL SUMMARY

Full Stack Developer with 1 year of freelance experience building MERN applications, RESTful APIs, and Generative AI solutions using RAG and LLMs. Skilled in scalable backend architecture, AI integrations, real-time WebSockets, secure authentication, and cloud deployment.

EDUCATION

- Mangalayatan University** Aligarh, India
Bachelor of Computer Applications (BCA); GPA: 3.4/4.0 Sep 2025 – 2027

TECHNICAL SKILLS

- Frontend:** React.js, Tailwind CSS, Responsive Web Design, UI/UX
- Backend:** Node.js, Express.js, REST API Design, JWT Authentication, OAuth 2.0, MVC Architecture, API Security
- Databases:** MongoDB, MySQL, Vector Embeddings, Pinecone DB
- AI & Real-Time:** Retrieval-Augmented Generation (RAG), LLM, Gemini API, GROQ (LLaMA 3.3), Generative AI, Socket.IO, WebSockets

WORK EXPERIENCE

- Freelance Full Stack Developer** Remote
Nov 2025 – Present
 - Full Stack Development:** Built and delivered production-ready MERN stack applications and RESTful APIs using React.js, Node.js, Express.js, and MongoDB, focusing on scalable architecture and reliable backend systems.
 - AI & Backend Solutions:** Developed AI-powered features and backend services using Gemini API, RAG, JWT authentication, and optimized MongoDB queries, integrating secure APIs and intelligent workflows into full-stack applications.

PROJECTS

- Aura AI – Full Stack AI Web Application**
Node.js, React.js, MongoDB, Gemini API, RAG, JWT, Vector Embeddings, Render
 - Production-grade AI assistant with persistent multi-session memory, JWT-secured authentication, and real-time responses built on the MERN stack.
 - Architected a custom RAG pipeline using Vector Embeddings and Gemini 2.0 Flash API for context-aware retrieval; deployed with MongoDB Atlas using database indexing and caching.
- CraveScroll – Full Stack Food Reels Platform**
React.js, Node.js, Express.js, MongoDB, REST API, JWT, Tailwind CSS, Render
 - Full-stack food reels platform with a social media-style feed where users discover trending content and creators upload their own reels.
 - Developed using MERN stack with authentication, creator uploads, RESTful APIs, and optimized MongoDB queries for smooth reel delivery.
- SnapScript – AI-Powered Caption Generator**
React.js, Node.js, Express.js, Gemini API, Generative AI, Tailwind CSS, Render
 - AI-powered caption generator that creates multiple context-aware social media captions from an image or idea.
 - Integrated Gemini API with React.js frontend and Express.js backend for fast multi-suggestion caption generation.

CERTIFICATIONS & ACHIEVEMENTS

- Deloitte Technology Virtual Internship – Forage** 2025
System analysis, data analytics, IT consulting workflows, enterprise client solution delivery
- AI Powered Job-Ready Cohort – Sheryians Coding School** 2025
MERN Stack, Generative AI integration, DSA, REST API design, software engineering fundamentals
